Your printed pieces

Your quote has $1,700 for printing. The business cards and bouquet tags used $164 of it, so there's $1,536 left. These are the pieces on the quote, priced from Canadian printers this month with tax included, so they'll move a little by the time we order.

Tick yes, no or swap for each one. Swap means you'd rather put that money toward something else, like the gift boxes below.

Ideas to swap in

- Gift boxes printed with your logo: 50 for $276, or 100 for $483.
- Plain kraft gift boxes with one of your stickers on each: about $30 for 50 (price to confirm).
- Small "leave us a Google review" cards to hand out at the stand: about $40.

Nothing gets ordered until you say so. The coroplast signs would be ordered around March, so they're fresh for when the stand opens.
